Prefab concrete elements

Max Frank GmbH & Co. KG

DECLARATION BY KIWA

This certificate was issued on the basis of BRL 5070 'Vooraf vervaardigde elementen van Beton' [Prefab concrete element] dated 2008-03-31, in conformity with the Kiwa-Reglement voor Productcertificatie [Kiwa Regulations for Product Certification].

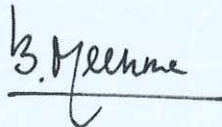

Kiwa declares that:

- there is a justified confidence that the prefab concrete elements delivered by the supplier comply with the environmental specifications laid down in this certificate, under the condition that they have been provided with the BSB[®] quality mark as indicated in this certificate.
- in accordance with the above, prefab concrete elements in their application and observing the corresponding application conditions comply with the relevant requirements of the Besluit bodemkwaliteit [Soil Quality Decree].

With respect to this certificate, Kiwa will not monitor:

- the use in works;
- the report and/or information obligation of the user to the competent authority.

With respect to the Soil Quality Decree this is a certificate recognised by the Dutch Minister for Housing, Regional Development and the Environment and the Minister for Transport and Public Works if this has been included in the 'Overzicht erkende kwaliteitsverklaringen in de bouw' [Overview recognised quality declarations for the construction industry] and in the websites of the Stichting Bouwkwaliiteit (SBK): www.bouwkwaliiteit.nl and of Bodem+: www.bodemplus.nl.

Bouke Meekma
Director Kiwa Nederland B.V.

Decree soil quality

Prefab concrete elements

ENVIRONMENTAL SPECIFICATIONS**Subject and application area**

This product certificate involves the environmental protection properties of the prefab concrete elements produced by Max Frank GmbH & Co. KG that can be used in construction (works) that may come into contact with rain water, ground water and/or surface water.

Quality marks and indications on the delivery documents

The products are marked with the NL BSB[®] quality mark shown opposite.

The design of the quality mark is as follows:

- text or logo of the NL BSB[®] quality mark;
- certificate number;

NL BSB[®] K55436

The quality mark and the production date are attached to the product and/or the packaging and/or delivery documents.

Composition and emission

The average composition values determined in conformity with AP 04-SB and the average emission determined in conformity with AP 04-U comply with respect to the intended application area with annex A of the Soil Quality Regulations.

CONDITIONS OF APPLICATION

Prefab concrete elements shall be applied in accordance with articles 5, 6, 7 and 33 of the Soil Quality Decree.

TIPS FOR THE USER

Inspect at delivery

- the consistency of the delivery with the order;
- the correctness of the quality mark and the manner of marking;
- whether the delivery receipt contains all data.

If you reject products on the basis of these above specifications, please contact:

- Max Frank GmbH & Co. KG te Leiblving;
- and, if necessary:
- Kiwa Nederland B.V.

Hand over the pieces of evidence (delivery receipts and certificate) to the client. This does not apply in case of delivery to natural persons other than in pursuance of profession or company.

The client must keep the pieces of evidence (delivery receipts and certificate) available for inspection by the competent authority for a minimum period of 5 years. This does not apply in case of delivery to natural persons other than in pursuance of profession or company.
